Give Paper Back, is an 'All India' campaign for reusing unused paper from old notebooks and redistributing it back to students.
Reusing paper will reduce pollution and help preserving trees.

Inviting schools & Students to join hands in this initiative..

Dear Parents,

This is to apprise you that our school has always been a forerunner in taking up initiatives for social causes and preserving nature/natural resources. Our next venture is to help the needy and deprived children by reusing unused paper.

This initiative is in collaboration with ONGC Foundation. We, hereby request you all to send your ward's /wards` **UNUSED PAPER / OLD NOTEBOOKS** to the **RESPECTIVE INCHARGES**, so that we can help in reducing pollution and preserving trees and render our services to the rural and tribal students (by converting the unused paper into useful notebooks/books for them).

We thank you for your kind cooperation.
