

ONLINE TEACHING CODE OF CONDUCT

DAV Pushpanjali has always been an institution with a cutting edge teaching - learning process. It has also been a leader when it comes to adapting new technologies and creating a more E- Friendly environment for students, parents and teachers alike. In the wake of this Global Pandemic of Corona Virus and the eventual Lockdown of schools, DAV Pushpanjali has very adeptly adopted Online Teaching through various platforms vis - a - vis Zoom Session, Google Classrooms , You Tube Streaming etc.

However this shift also calls for certain Online Etiquettes which the students need to follow, so that inappropriate instances of online bullying, sharing of lewd content , teacher mocking can be curbed. Therefore, we are laying down a certain CODE OF CONDUCT for the same as follows :-

1. Students must display their full names , class and section when they log in for the E-Sessions.
2. They should under no circumstance share the password and ID of the meetings with any outsider.
3. They must display a model behaviour and refrain from any kind of social bullying via personal chats or messages among each other or the Teacher, during the class.
4. Under no circumstance should they be tempted to digress from the Classroom teaching via exchange of lewd messages, comments or content.
5. They ought to inform the Supervisory Head and the Concerned Teacher if they encounter anything inappropriate during the session.
6. Strict disciplinary actions will be taken against the miscreants, leading upto dismissal from any future sessions and further action.A record of such instances is being maintained. **Do not forget that Schools will re-open in a few months time.**

These sessions are being provided to bridge the gap and minimise any sort of loss that you would have encountered during this period.

Please make the most of it , rather than indulging in nefarious activities.

So in this concern we wish all of you to please fill in the undertaking (both by Students (Section 1) and Parents (Section 2)) by clicking the link below :-
