Dear Parents

Holidays are always a welcome break from the normal routine and we all look forward to them. They give us the opportunity to pursue all those activities that we enjoy but never find enough time to indulge in.

The Holiday Homework has been especially designed to strengthen the concepts taken up till now to ensure your maximum participation in your child's developmental plan. Care has been taken to plan activities that would help to build the vocabulary, enhance creativity and thinking skills.

Kindly encourage the spirit of scientific enquiry and foster awareness about nature.

Make sure that you click photographs of your child while doing all these activities. Create a collage of print outs of all the clicked pictures on A3 size sheets and send on the specified date .

Amidst all the fun and frolic, let's twirl our fingers and mind for a bit of homework!
